

Welcoming the New Year in Hakuba Village

Dear Residents and Friends of Hakuba Village,

Looking back on the past year, we strongly felt changes in the natural environment, beginning with the heaviest snowfall in a decade, followed by extreme summer heat and an increase in bear sightings across Japan. In Hakuba Village, we launched new initiatives including the development of child-rearing support facilities, the installation of integrated rooftop solar panels on public buildings, and the introduction of the local digital currency "Alps Pay." It was also a significant year in which we worked on formulating the 6th Comprehensive Plan, outlining our community development policy for the next decade, as well as the Tourism Destination Management Vision, which sets the direction for sustainable tourism.

While we are grateful that many people from Japan and around the world continue to choose Hakuba as a place to visit and live, we also recognize the challenges that come with increasing cultural and linguistic diversity. Based on feedback from resident surveys, community meetings, workshops, and advisory councils, we established the core philosophy of the 6th Comprehensive Plan as: "Living in Harmony, Nurturing Lives – A "Best Living Village" Built on Mutual Support and Shared Happiness".

Guided by this philosophy, we aim to live together with Hakuba's greatest assets—its nature and its people—while fostering environmental, social, and economic well-being. Our vision is a village where diverse people are connected, support one another, and share happiness.

Similarly, through the Tourism Destination Management Vision, we are shaping policies that promote tourism while enhancing residents' quality of life and preserving local history, culture, and community. In an era of rapid global change, we believe it is essential to prioritize livability and the happiness of our residents.

Looking ahead, the Milan–Cortina Winter Olympics will be held in February, and we look forward to the participation of Nordic combined athletes Akito and Yoshito Watabe, as well as freestyle skier Kokone Kondo. As Mr. Akito Watabe has announced his retirement after this season, we hope residents will come together to support him in his final appearance and invite you to join our public viewing events.

This year also marks the 70th anniversary of Hakuba Village, following the merger of Kamishiro and Hokujo villages. To pass on an even stronger Hakuba to the next generation, we ask for your continued understanding and cooperation as we work together as one community.

In closing, I sincerely wish you all a happy, healthy, and prosperous New Year.

Warm regards,
Mayor of Hakuba Village
Toshiro Maruyama
