Conducting of "provisional rate policy" for winter <Exclu

<Exclude automatic meter reading (AMR) service users>

What is "provisional rate policy" for winter?

Due to the heavy snowfall during winter (Dec-Mar), besides customers who have applied for AMR service, water meters cannot be read throughout the period. On that account, influenced customers will be requested for a temporary charge based on an estimated water consumption amount for Jan-Apr's water and sewer bill. A billing adjustment for winter period will be made in May.

Confirmation of estimated water consumption amount and provisional rate

You may confirm the estimated water consumption amount and the related provisional rate on the left side of the notification postcard.

The pre-set water consumption amount can be adjusted upon request. To change the setting, please fill in the return postcard (right-sided) and send it back to Hakuba Village Office **by Friday**, **Dec 26**, **2025**. Reply only when you intend to change the pre-set amount.

- * Please note that the pre-set amount and provisional rate **CANNOT be changed** in the middle of winter.
- * In order to adjust the winter bill, contact Water and Sewer Division as soon as you have decided to: discontinue the service / change the user's name / move to a new address.

For inquiries: Water and Sewer Division of Hakuba Village Office TEL: 0261-85-0714
